

BIOFUEL BHARAT + SUGARTECH SUMMIT 2027

Delegate & Sponsorship Brochure

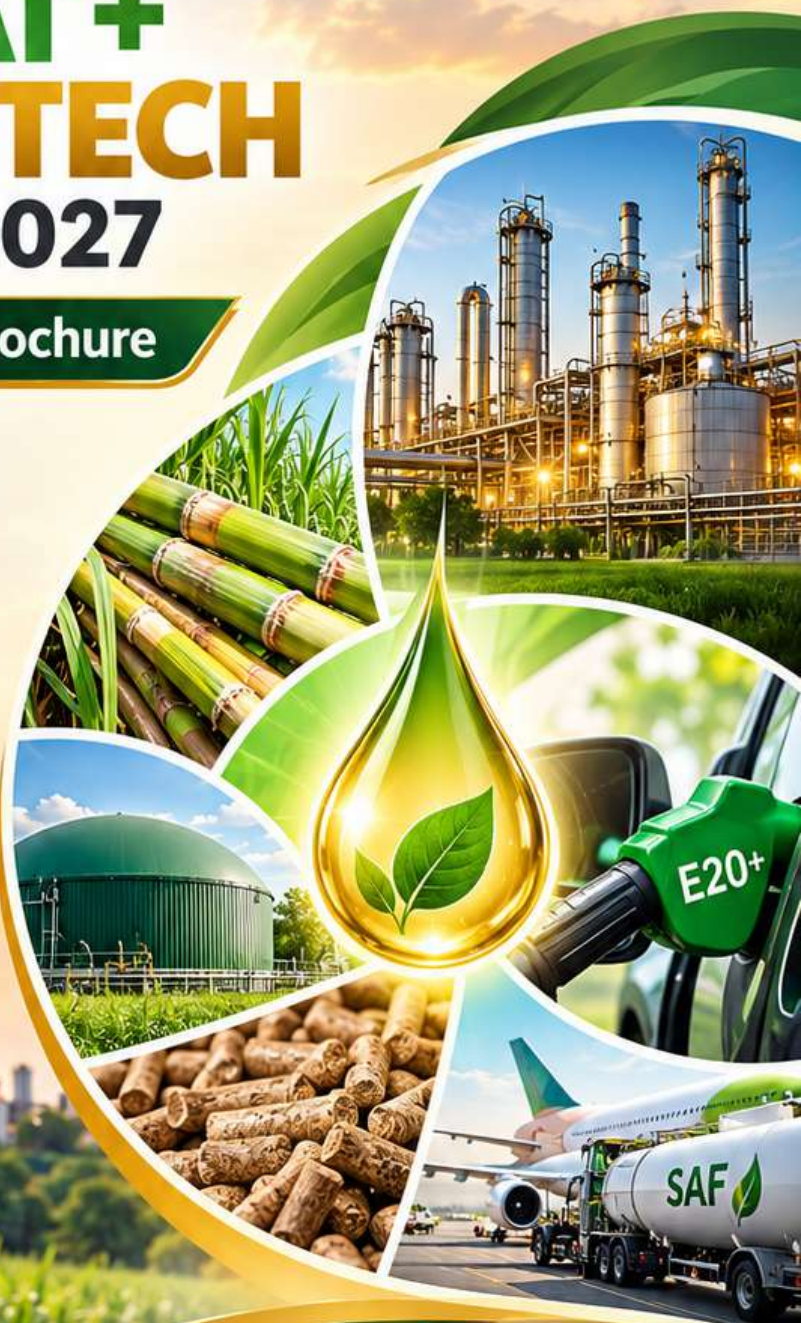

17–19 February 2027

**Mahalaxmi Lawns,
Karve Nagar, Pune, Maharashtra**

Three-day conference on biofuel policy, sugar and ethanol technology, commercial biogas, biomass, advanced fuels, flex-fuel mobility, project finance and sustainable industrial innovation.

B2B MEETINGS

INNOVATION

BIOFUEL BHARAT + SUGARTECH SUMMIT 2027

Three-Day Conference Highlights

An agenda built around policy, technology, investment and industrial innovation

DAY 1

WEDNESDAY

17

FEBRUARY
2027

- Registration & business networking
- Inauguration, welcome & expo opening
- Special policy / industry keynote
- FC1: India's Biofuel & Energy Security Roadmap
- Advanced biofuels and refinery technology briefs
- FC2: Sugar, Molasses and Ethanol: Policy, Technology & Economics
- Integrated sugar mills, distilleries and bioprocessing
- Buyer-seller meetings and technology demonstrations

DAY 2

THURSDAY

18

FEBRUARY
2027

- Registration and welcome tea
- FC3: Commercialising CBG and Biogas Projects
- FC4: Biomass Pellets, Supply Chains and Co-Firing
- FC5: SAF and Advanced Bio-Refining
- Waste-to-energy, enzymes and feedstock innovation
- Bioenergy investment / project matchmaking

DAY 3

FRIDAY

19

FEBRUARY
2027

- Registration and welcome tea
- FC6: E20-E100 Flex-Fuel Vehicles: Technology, Testing & Future Pathways
- FC7: Financing Ethanol, CBG and Bioenergy Projects
- Industry investment roundtables and innovations
- Excellence Awards and Summit recommendations
- Valedictory session & closing remarks
- Networking / exhibition interactions

Provisional agenda • session formats, topics and timings subject to change.

BIOFUEL BHARAT + SUGARTECH SUMMIT 2027

Seven Fireside-Style Roundtables

Discussion themes planned within the three-day summit agenda

01

FC1 India's Biofuel & Energy Security Roadmap

Policy continuity, feedstock balance, fuel supply, investment and post-E20 research.

02

FC2 Sugar, Molasses and Ethanol: Policy, Technology & Economics

Sugarcane/grain allocation, sugar mills, molasses, distillery efficiency and ethanol economics.

03

FC3 Commercialising CBG and Biogas Projects

Feedstock, tariffs, plant performance, biogas offtake and digestate valorisation.

04

FC4 Biomass Pellets, Supply Chains and Co-Firing

Agri-residue aggregation, pellet quality, utility tendering, logistics and boiler performance.

05

FC5 SAF and Advanced Bio-Refining

SAF pathways, certification, feedstock, carbon intensity, offtake and technology scale-up.

06

FC6 E20-E100 Flex-Fuel Vehicles: Technology, Testing & Future Pathways

Engine compatibility, E85 FFVs, vehicle certification, fuel retail and research needs beyond E20.

07

FC7 Financing Ethanol, CBG and Bioenergy Projects

Bankability, risk-sharing, financing, working capital, concessional support and returns.

Cross-Cutting Technical Themes

Sugar & Ethanol

Fermentation efficiency; molasses and grain ethanol; integrated biorefineries; procurement and blending logistics.

CBG, Biomass & Advanced Fuels

Commercial CBG offtake and economics; agri-residue pellet supply chains; biomass co-firing; SAF pathways.

Vehicle & Industrial Technology

Flex-fuel engine calibration, material compatibility and emissions testing; spentwash management and water reuse.

Finance & Innovation

Bankable bioenergy projects; deployment of research technologies; commercialisation pathways and long-term industry investment.

Ideal for Corporate Delegate Nominations & Strategic Sponsorship

Engage with decision-makers across sugar, ethanol, bioenergy, mobility, aviation, finance and industrial technology.

All sessions remain provisional.

Why Corporates, Delegates & Sponsors Should Participate

A strategic platform for business, investment, technology and policy engagement

Why Attend

Gain insights into India's evolving biofuel and sugar-tech landscape

Meet policymakers, project developers, sugar mills, distilleries and investors

Discover opportunities in ethanol, CBG, biomass, SAF and advanced bio-refining

Access knowledge on project finance, feedstock strategy and technology adoption

Build partnerships through networking and B2B meetings

Who Should Participate

Sugar mills, distilleries and integrated biorefineries

Ethanol, CBG and bioenergy project developers

Technology providers, OEMs, EPCs and process solution companies

Investors, lenders, consultants and sustainability teams

Automotive, fuel, aviation and industrial decarbonisation stakeholders

Why Sponsors Benefit

Brand visibility among high-value industry decision makers

Thought-leadership opportunities through sessions and showcases

Access to curated networking, business meetings and project conversations

Positioning alongside innovation, energy transition and sustainability themes

Association with a premium multi-stakeholder summit platform

Event Highlights

3 conference days

7 fireside-style roundtables

Technical presentations and seminars

Networking lunch and exhibition visits

Buyer-seller meetings and technology demos

Excellence awards and summit recommendations
